

COVID-19

Safety Protocol
Update

Nashville Lighting & Grip takes our promise of having the cleanest gear in Nashville very seriously. That means we're doing a whole lot more around here. For the safety of crew, production, talent and our families we have instituted a new and thorough protection and disinfection regimen for all equipment rentals. If your production has specific compliance criteria or guidance, please inform our rental team.

First - Sadly, our offices and equipment area are now staff-only areas. We'll certainly step out to chew the fat when you come by, it's been a while!

Second - As we've all heard and said on set a million times over the years already: If you have something contagious or think you could be sick - sit this job out!

Third - To insure the utmost safety for our clients and staff we have instituted the following protocols:

For All Rentals:

- Every piece of equipment on your order will be cleaned with a virucidal product before it leaves our facility. NL&G staff wears gloves and a mask during this process.

For Client Pick-Up and Return Rentals:

- All equipment on your order will be placed in a "contactless transfer station" outside of our equipment area and that will become your load-out point at NL&G. Just give us a call at 615-678-2727 when you arrive and we'll come out to meet you.
- Upon arrival at our shop for return: simply call us, then unload in one of our designated areas and we'll take it from there!

For NL&G Delivery/Pick-Up Rentals:

- Our driver will load and transport your equipment wearing PPE.
- When we pick up, please have all equipment staged outside the location. We'll need to wipe it down before loading up our vehicle.

For Grip Truck Rentals:

- The cab and interior of your vehicle is thoroughly cleaned with a virucidal product before and after every rental, down to the seatbelt latches and radio knobs. NL&G staff once again wears PPE during this process.

Additional Measures NL&G is Taking:

- We are currently working with select vendors to offer PPE and sanitizer products for purchase through our expendables department. These will be made available to you at or near our cost.

Thank you for your understanding and your help in keeping the risk down for all of us. We've worked with many of you for years and we will continue our promise of providing the highest quality equipment, service and care in our industry. We're here to help everyone get back to work safely and responsibly.
